RE: Docket No. 2009-489-E

Is it true that SCE&G has approved a 2.5 percent rate increase annually for the next 10 years following a 4.4 percent increase in 2008? This is outrageous! My SCE&G monthly billing is already over the top. What about those on fixed incomes ... what about those that are unemployed? Where is SC&G's conscious in all of this? Don't they know and understand the repercussions this will have on the already over worked, over taxed South Carolina citizens just trying to get by and to keep their homes out of foreclosure? What's next? This could very well be the straw that will break the camel's back for many, many of our hard working proud people in South Carolina.

Sincerely,

Glenda Ellis
